Experience

Front-End Developer | Avesta Group | 2023 – Present

Design and build responsive, user-friendly websites for various clients. Collaborate with designers and backend teams to deliver high-quality, optimized, and visually consistent web solutions.

Full-Stack Developer (Personal Project) | Squlry | 2024

Created Squlry, a personal project offering URL shortening with analytics. Built the entire stack, from database and API design to front-end implementation and deployment.

Full-Stack Developer | Botlon | 2021 – 2023

Worked on Botolon.com, an automated chatbot platform using Meta APIs for user interaction through comments and Messenger. Developed and maintained both front-end and back-end systems, focusing on performance, scalability, and real-time communication.

Skills

Languages: JavaScript (ES6+), TypeScript, Golang, HTML5, CSS3.
